Create Your Own Party Platters

Appetizers and Hors d' oeuvres

Many of these items can be picked up ready for you to heat to complete and serve. When figuring how many hors d' oeuvres are needed you need to know a few items… first, how long will your guest be eating and drinking, second, are these in place of a meal or a precursor to a meal and third, how many different items will you be serving. Here are a few rules of thumb.

Light hors d' oeuvres plan on 7 – 10 pieces per person Heavy hors d 'oeuvres plan on 11- 15 pieces per person
